A statement of your checking account activity will be mailed (or electronically delivered) monthly to you. The statement will provide you a complete record of deposits, checks written and any other account charges. There is a \$2.50 per month charge to receive images of your checks in your statement.

Due to MICR encoding requirements of our check processing machines, it is necessary that all checking account customers purchase personalized, printed checks from an approved check printing company of the Bank's choice. The cost of the checks is paid by the customer and is set by the printing company. If a customer does not wish to purchase printed checks from an approved printer and these checks subsequently reject, there will be a \$0.15 fee for each reject.
